YOGESH PAWAR

ACTOR / DIRECTOR
MODEL GROOMER
FASHION CHOREOGRAPHER

• **JOURNEY:**

To be in the limelight has always been a dream for me since my childhood. But for that you need to be consistent with good work.

I started my acting career in the year 2017 and modelling career by 2018. The major turnaround for me has come for me when i started my own company named "Kashish Productions". Since then its just been a roller coaster ride for me. To train 1410 models in a course of 18 months is what i believe keeps me apart from others.

• **SUGGESTION FOR NEW COMER MODELS :**

- **Dedication** : You need to be dedicated to achieve success in this field. You cant afford to be complacent at any point of your career
- **Confidence** : You have to carry the confidence of your sleeve to be able to cope up with the challenges thrown at you at any point of time. Confidence helps you perform better.
- **Fitness** : Modelling is quite a hectic field to be in. And to face the physical challenges you need to keep a special attention on your fitness. It will help you work for more hours with less effect.
- **Dress According to the occassion** : Always carry your own style wherever you go and try not to copy any1. Always carry the style which suits you and your body type. You have to be well dressed according to the occassion and the place which you are going. Follow the professional ethics of the event.
- **Punctuality & Professional Approach** : As a model you have to make a habbit of being on time at the given place. Be professional with your approach and make sure you never break your commitments.
- **Importance of PR & Networking** : PR is one of the major things that will help you give good work in this industry. This is a showbizz and you have to make sure that people will get to know whatever you achieve in your day to day life.
- **Consistency** : Consistency is very important to achieve success. To be a successful model you need to deliver on a consistent basis. This will help you fight hard against all the challenges and competition.

I ll end it by saying that modelling is just not about being good looking and fit but its about being professional and following all the rules with professional ethics.

Managing Director of Kashish Productions

MR. YOGESH PAWAR

(Actor / Director / Model Groomer / Fashion Choreographer)

TANISHKA VASWANI

I was interested in modelling since childhood as I always believed that age is just a number and you can purely achieve anything and everything if you decide for it. Your powers are beyond your realisation.

Achievements in modelling

Mrs Pune Global (Kashish Productions) 2018, Mrs India International Milestone 1st runner up, 2019, Mrs Central Asia, 2019, Style Diva, 2018, Refreshing Beauty, 2019, Best Smile Award 2010.

Struggles and challenges faced- Each challenge I faced, I took as a stepping stone to my success. I have two kids, whom I have to take care of and of course it was difficult to manage my household responsibilities and participating in events simultaneously. Thanks to my mother and my husband who supported me a lot.

I believe if you are pure by heart nobody can approach you for any wrong things, so the same thing happened to me and by Gods grace I always met good and genuine people.

Biggest suggestion to the new comers on how to approach towards modelling.

There is no shortcut to success. Work hard and be genuine. Love what you do, Always apply 3D – DREAM, DARE, DELIVER. Universe will attract what you Dream. Make your own identity so that you should stand in crowd but crowd should stand for Watching You.

My future Aspirations-

I am a proud Indian and always wanted to make my country proud (thanks to Milestone Mrs India who gave me this opportunity to relive my dreams)

My biggest fantasy of life has been howw people work in tv (television) even I want to become an Actor.

My motto in life is

If life throws lemons on you, make a lemonade out of them.

Money can't buy happiness, but when you help people it make wonders and that's the definition of happiness for me. The blessing what you get after helping people will count your success. It's not the beautiful face that wins, it's the heart that has been chosen. And this credit goes to my mentor Yogesh Pawar.

CONFESSION

When someone is nasty or treats you poorly, don't take it personally, it says nothing about you but lot about them. In every field there are people who will pull you down, don't let your sparkle down for those people. Avoid negative people, go ahead. Its your aura that makes you a positive person towards life. Thank each day of your life, n always count your blessings rather than burdens.

• STRUGGLES FACED BY NEW COMER MODELS

To be honest, the modelling business is still growing and yet to have a proper structure, therefore the upcomers may not have stable incomes. Every profession has its own ups and downs and so does fashion industry. Its not all about glamour, make up, poses and hairdos, behind the glory lies a lot of pain.

• IMPORTANCE OF BEING PROFESSIONAL

Four pillars of professionalism that I swear by are

- Boundaries
- Duty
- Respect
- Ownership

Professional behaviour helps separate business from personal.

• SUGGESTION FOR NEW COMER MODELS ON HOW TO APPROACH TOWARDS MODELLING

I would like to put my sincere advice to all the modelling aspirants out there to understand and assess the market first, you can also take help of a good agency to keep you rolling throughout. Also get some practice and never forget to keep your values intact. Lastly, you can never go wrong by knowing the odds. All the very best!

• CONFESSION ABOUT DIRTY SIDE OF THE INDUSTRY

As I discussed earlier, every profession has its own ups and downs. Glamour industry is no exception, but if you cultivate the 'knack' for the rights and the wrongs, no platform will harm your being. As I believe, understand and analyse the dark sides and keep yourself away from it.

BHAVANA SHARMA

ACHIEVEMENTS:

- Dazzle Mrs. India Universe 2nd Runner Up 2018
- Mrs. India Universe – West Zone 2018
- Mrs. India Rampwalk – 2018
- Global Excellence Award Winner – Personality Grooming – 2019
- Women's Glory Award – Personality Groomer 2018
- Founder of “Estilo by Bhavna Sharma” a Personality grooming & transforming firm.

PERSONAL CHALLENGES :

- I was married at the age of 18 years and a mother at the age of 19 years .I completed my studies when I was expecting my 1st child who is 19 years old now . With no self-confidence and a very reserved nature and being a house wife then had no knowledge of fashion or even proper communication in public . When I was bully for my reserved nature and my looks I took it up as a challenge and transformed myself totally from an introvert to a multitasker today .
- I am a Mother of a teenage son and 6 year old daughter managing my job at Barclays Software along with pursuing my passion of riding Bikes (Longest Rides : Pune – Raan of Kutch , Pune – Hyderabad and multiple short rides) to exploring the fashion world by playing a Jury Member , grooming national & international candidates for Beauty pageants and Selecting candidates as State & Zonal Director for National & International Pageants.
- Theirs a phrase “Behind Every successful Man there's is Women” but in my case Behind this successful women there is a Man who has stood by me and my choices always

IN WHAT WAY PEOPLE APPROACHED U FOR COMPROMISE OR BRIBE, ETC

People many a times approach for sexual favors in return of getting roles in Web Series or TV serials which depends totally on personal choice weather to get into that trap or no. Most probably if you been approached for any compromise or Bribe better to walk off and opt for genuine Guys

SUGGESTIONS FOR NEW COMERS & HOW TO APPROACH TOWARDS MODELLING

Suggestion is just that don't be in a wonderland and self-praising zone , understand self-capability and then only enter the Modelling world , yes for Acting it's a different game play all together as in that looks , height weight does not matter but when you want to excel Modelling you need to have good height , appropriate weight , attitude and attractive looks would add fuel to the fire.

MEDICAL CHALLENGES :

- In a sudden incident, had suffered partial paralysis on right hand and face in which my two peripheral nerves had been damaged and my face had been disfigured. Doctors had lost hopes of recovery soon but after loads of medications, physio therapy, Naturopathy treatment and strong determination I bounced back to normal in 6 months but due to heavy medications I gained 22 kgs of weight.
- Wanted a motive to live again and prove myself that's when I decided to lose weight and enroll myself in Mrs. India Universe pageant .Went for auditions but they considered me only if I loose 20 kgs minimum to fit in their criteria . I took that as challenge an motivation to loose weight . As medicinal weight loss is very difficult to loose I have to dedicate my 100% towards this 20 kgs weight loss . Changed my lifestyle totally cultivated good & timely eating habits, started walking and exercising at home, sleeping well and keeping myself hydrated all the time.
- I managed to loose 12 kgs in 4 months but after that it was a big challenge as my weight loss had become stagnant and my body came to a plateau stage where after doing everything right also I was not able to loose 100 grams of weight .Thats when I approached my old friend and Gym Trainer Prashant Jagtap owner of Spark Gym in Fatimanagar , Pune .
- He joined me in this challenge and helped me loose those 8 kgs in just 45 days , so just 2 before my pageant I was successful to achieve my target and participated at Dazzle Mrs. India Universe 2018 beauty Pageant held in Colombo ,Srilanka

CONFESSION:

I had done loads of preparation for my Mrs. India Pageant right from weight loss to arranging finance, as I was jobless that time. After giving my 200% and comparing the Winner & 1st Runner Up I felt it was total injustice done and the pageant may be fixed however by my true potential I managed to win 2nd Runner up title along with 2 more titles which even the winner never won so many titles.

Yes, I was totally disappointed with the results but due to my capability and positive attitude and approach im doing great compared to the winner & 1st Runner up of my pageant who are sitting at home with the Crowns they won.

I personally feel that maximum Pageants are fixed and right from top 5 titles to the Winner , somehow I feel if everyone decides no one pays and play a fair game how will such Pageant Organizer will able to loot people

SUGGESTION FOR MODELS ON HOW TO CARRY OUTFITS ACCORDING TO THE OCCASSION :

- When it comes for the dresses of models so it always depend upon occasion as for jewellery Shop Inauguration they should emphasis on plain ethenic wear so that they can be hold heavy neckless and other neck jewellery along with head gear.
- For men suit should always be dark, in any evening event also they should be well groomed. If male model likes preppier look, then go with colorful items. Opt for more chinos than jeans; oxford button downs over lighter woven cotton.
- If male model is opting more for the street style, then stock your wardrobe with different shades of the same color. Opt for jeans over chinos and trousers, and a slimmer fit.
- Finally, Items male model should have in their closet: A suit, jeans, chinos, button downs, plain t-shirt, sweater, dress shoes, boots, and sneakers.
- For Women model they should wear an evening gown with a floor-length hem. If its a formal occasion, so they should have look for rich fabrics such as satin and taffeta for that high drama finish.
- A prom dress should be age appropriate, comfortable, elegant and of course beautiful. The idea behind a prom is to enjoy the evening and your dress should be the last thing getting in your way.
- Cocktail parties are fun, in-formal gatherings. They're all about delectable canapés, glamorous dresses and of course great cocktails!
- All business dinners call for a formal affair. And that means sticking to a dress code that screams elegance and refinement of the finest kind.
- It's best to keep matters professional but that doesn't mean you have to dress boring.

CONFESS!ON

“Be a model” is a dream for many girls and lots of them envy our position, thinking that we are invited to many parties, that designers give us plenty of free clothes and a luxury cars/ Mercedes picks us up in the morning to bring us to our daily photo-shoot.

Fortunately, models are not all anorexic and if they were, they would probably expect people to be supportive and compassionate instead of being judgemental and mean! Most of models don't earn so much money due to the fact they have huge debts with their agency and they are often paid months after they did the job. Most of them have no health insurance.

STRUGGLES FACED BY NEW COMER MODELS

There's a lot of pressure lying on the shoulders of upcoming Models these days. With an industry competitive and brutal as never before, each moment could become the defining one for your career, putting you on the global fashion map, or giving your brand just the kick-start it needed. Struggle for new assignments, visibility & rejection is a constant process for the models. Choosing right project and avoid getting into unethical practice is the need of the hour for the models. This can be avoided in following the straight path. Difficult but not impossible.

NAZIM SHAIKH

(Social Media Influencer)

MY BIGGEST ACHIEVEMENT IN MY FIELD

The biggest achievement according to me is everyone around you is happy with you. Being able to stay happy, in almost every situation, is the biggest achievement, so far. On work front – completion of successful show or event is achievement.

IMPORTANCE OF BRANDING

In today's world that moves on smart opportunities & superior alternatives, Wizetron is headed by Nazim Shaikh which specialized into Design & Online Promotional Branding making an incisive understanding of market demands & product differentiation.

In the words of the Think Tank himself, "In today's fast paced times, where quality mingles with perfection & *Innovative Ideas Rein Supreme*".

SUGGESTION FOR MODELS ON HOW TO APPROACH TOWARDS MODELLING

There are professional institutes which train and handle careers. Choose the right one by checking all details from social media to website and then enrolling.

CONFESS!ON ABOUT DIRTY SIDE OF THE INDUSTRY

Be optimistic and avoid letting yourself in falling prey to pressure and unethical practice. There are many who organize shows without even any kind of understanding. They are ruining careers of aspiring models.

DNYANESHWARI GAIKWAD

"The secret to modeling is not being perfect. What one needs is a face that people can identify in a second. You have to be given what's needed by nature, and what's needed is to bring something new."

Being a role model isn't about showing people how to look like you. Being a role model is about using your freedom to show other people it's safe to be themselves.

I got into modeling when I was about 20. I started my career by participating in beauty contest. Before I was working as a software engineer. I won a beauty pageant and also brand title. I became very happy and confident after that. I wanted to take my career to the next level, so started collaboration shoots and started doing paid shoots. I worked as a fitness model and did some fitness product advertisement also got the opportunity to help **Mr. Yogesh Pawar (director of KASHISH PRODUCTIONS) to groom models of all categories(Mr, Miss, Mrs.)**

Personally, I think being a model you need to be very calm and with full of patience. Because you are going to deal with all types of people. I learnt a lot of things during this journey of modeling right from the beginning. Modeling is a type of creative and performing art. But more than art as it is a talent. So showcasing your talent on perfect platform will lead to get you better opportunities and experiences.

CONFESS!ON:

From software engineer to fashion modeling the journey wasn't that easy.

"Initially my parents didn't want me to become a model. They felt that the profession was for the fickle minded and that it did not promise a sustainable career or source of income".

But without their support I would have never become a model and the one of the winner of Miss Soneri Maharashtra 2018. This made me more confident of modeling as a profession.

Family's trust in me has helped me make the right choices. Not many girls are lucky to get that kind of family support.

PRASAD KHAIRE

I'M IN MODELLING FIELD SINCE 2016.

In 2016 I won 1st runner up for Mr & Miss PCMC and in 2017 I won the Title of Fashion icon 2017.

In the same year I won style icon for Model face hunt. After that i went as a jury member for many shows till now.

About struggle I would say that when I started my journey as a contestant I was not supported by my family and friends.

About challenges I would say during PCMC competition i was the only one contestant who was not from modelling background apart of that I won title of 1st runnerup.

When I was working as a jury member I was asked for bribe from organisers and some contestant so I should make them win.

For new comers my suggestion would be to believe in yourself, be confident, do hard work and most important never cheat for winning a title.

The worst part I experienced, is that many times judgements and jury members are unfair and they give results according to the organising team.

- Hence Hridaya avoids such shows.

GARISHMA GAJWANI

I truly believe “One must never stop trying, never stop believing and most importantly Never give up, Giving up is not an option “. Success is a journey where there will be hardships, there will be failures but always learn from them. Stand up Tall and try to be better and better each time.This is what will lead you to your beautiful destination which will be created by ‘ YOU ‘.

I started my modelling career in 2018. From being a physiotherapist to winning the title of “ MISS PUNE GLOBAL 2018 ”, i started getting better and better. I am grateful for everything I have achieved till now.

My biggest strength is my family who has always supported me in all my decisions I will always love and respect them for Raising me to be a Strong, Confident and Independent woman. My Education has helped me to improve my decision making skills and to be a good learner.

I have a long way to go but I always take opportunities as my challenges as you never know what is going to change your life. Little things do make a big change – Be thankful for everything you have, Be kind, Be true to yourself Help everyone around you, Think positive, Believe in God – You are the creator of your own universe.”

MR. OMKAR GADHAVE

Began modelling as a professional career since 2018. We as a family have had really fun getting to know each other quickly. I am fortunate to have got an opportunity to work with **Kashish Productions** so closely.

Tonnes and Bunches of Thanks !!!

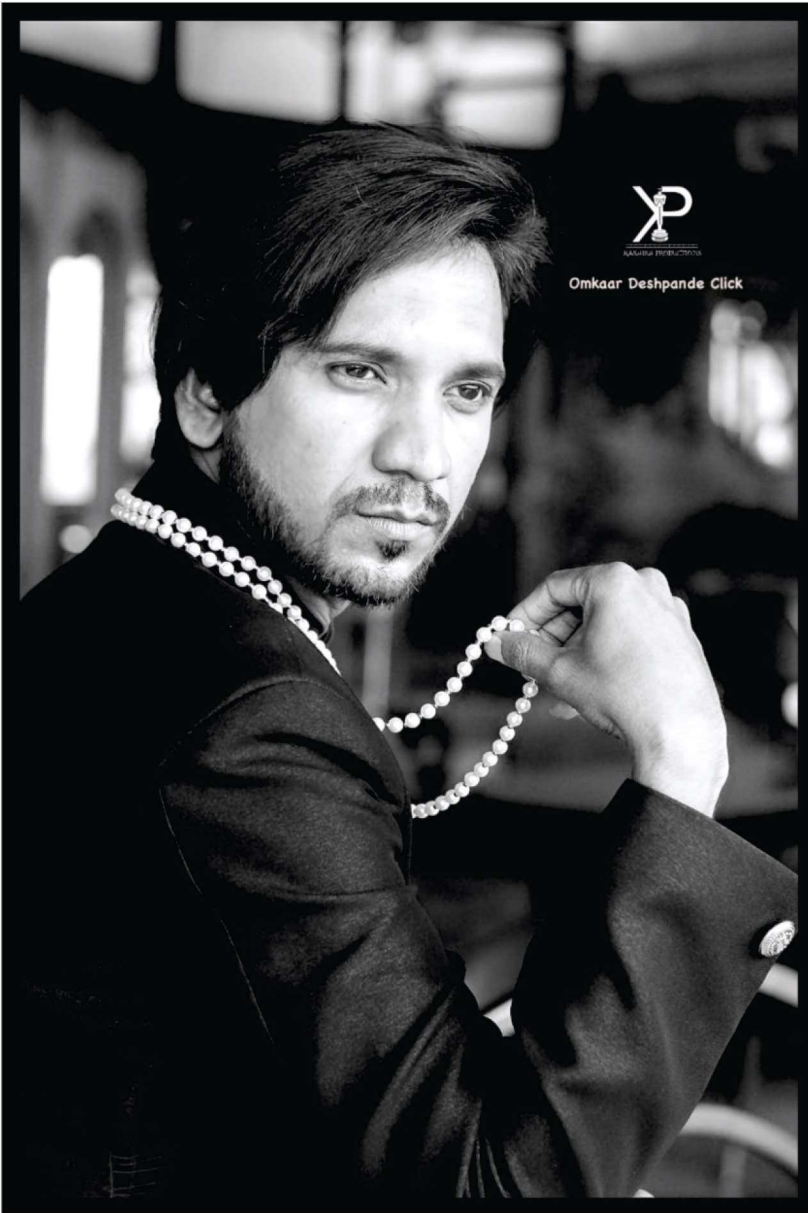

One of the favorite saying that fascinates me more often i.e "There's no sense in being prepared if you're not open to the possibility of a glorious accident"

C O N F E S S I O N

Entering into glamorous world of fashion wasn't as swiftly journey as that could support me from all directions. But being from a rural background and facing stereotype ideology, I was adamant about chasing those tides and witness true wisdom of fashion industry. So, I decided to shift myself to Pune where I had dreamt of beginning my career with and gain pool of opportunities. Travelling far from family and living independent provided me courage to strive for all-round development and success. Even though I had to sometimes cook for myself or have a mess food, keeping fitness and maintaining a healthy diet was always on my priority list that truly kept me going forward persistently and face difficulties confidently.

So, I personally believe that life is all about hardships in all direction, it's our perception towards them which sets us apart. So, with a goal and determination to be a role model for upcoming generation and bring laurels to my nation, I strive to work much harder and smarter to conquer that star, no matter how place, no matter how far !

NIKHIL SANTOSH

BAHARWAL

COMPANY NAME :-

Nikhil Baharwal Photography

In photography since :- 2011

ACHIEVEMENTS IN FIELD

1. Various Fashion shows and celebrity shoots.
2. Clothes branding shoot.
3. Product shoot.
4. Models shoots.
5. Event management.

STRUGGLES AND CHALLENGES :-

Have a dream of becoming The Best Photographer and have started taking steps towards it. Firstly I did research about all the techniques and skills required to take The Best photograph.

The Hardest part I faced was making the financial arrangements for the Camera and all necessary equipment's. It took me 5 years for arranging all the Equipment's I needed. There were many Ups and downs I faced to make my Name and Fame in Photography. Currently my brother Divyaraj Baharwal takes care of photography too and he is very much talented as far as photography is concerned.

Finally today I am at the stage of making my dreams come true through Fashion shows, Events and many more different photo shoots.

Each day I learn something new and will keep learning till Last.

"Photography is my passion and for me it's not just clicking pictures, I feel what I click. And I believe in putting life in my pictures. "Because If you can't feel what you're looking at, then you won't be able to make others feel the same when they look at your pictures".

SUGGESTION FOR NEW COMER MODELS

1. Wait for your time to come.
2. Have patience in each phase.
3. Ability to Work Hard and keep learning new things.
4. "Opportunities don't happen. You create them."

CONFESS!ON

When I was financially unstable to buy New Camera Equipment's. And the second thing for more branding of my photography I have done many Photoshoots for FREE of cost.

JYOTI JOSHI

I have only two types of days : happy and hysterically happy."

I started modelling in the year 2018 when I first moved to Pune. Since then I've won the title of Mrs. Perfect in pageant **Mrs. Maharashtra Global** and am the finalist **Mrs India 2019 for MIBQ**, and have been part of various magazine shoots and have walked for few labels.

STRUGGLES AND CHALLENGES:

I always have a favorite quote that is 'respond to every call that excites your spirit,' and exactly this is the reason I am here in this field. As a mother of two children in this profession I've come across various challenges. It's almost impossible to take out time for going to shoots to working out at the gym or getting yourself prepared for giving yoga or physical fitness classes when there are two children you have to look after. But I can proudly say that both of my children are toppers of their respective classes and my elder daughter takes care of her younger brother when I go out and my husband's busy at the office. Plus being highly career oriented person it really gets difficult to handle both situations hand in hand. It kind of gives you an edge to be able to perfectly balance things rightly.

CONFESSION

This modeling industry is notoriously cutthroat. It's long been plagued by allegations of mistreatment of underage girls, lack of diversity, sexual harassment, promoting an unhealthy lifestyle and just about any other horrifying cliché. I first got inclined towards this world at my teenage when my friends insisted me to participate in a college beauty contest (which I won). But eventually as I indulged into it I discovered the dirty politics within the institution and I backed off. But that was a different time and back then I was not as strong as I am today. So yes I really backed out during those days which could have been milestone for a bright future and I choose HR management as profession though.

PRADNYA SHINDE

All your dreams come true if you have courage to pursue it!

It was my childhood dream to see myself crowned and to make my parents proud and this dream came true in Jan 2019 through Mrs. India International, a beauty competition held in Dubai. I stood 4th runner up in the “Princes” category. I **always believe in the phrase “Never Give Up”**. It was indeed a way hard journey for a girl from a middle class maharashtrian family having a son of 10 year old. Being an engineer in a multi national company it was actually very hectic to take out time for the grooming sessions, workout, preparation for the pageant and so on. The very first step was to convince my in-laws and family members. It required a lot a transformation within... starting from the basics like how to walk on a ramp, presenting your skills you possess and to carry yourself with a smile, etc. My grooming mentor Ms. Bhavna Sharma played vital role in bringing out the best within me. It was eventually an impossible task but the support that I got from my family helped me to achieve my dreams. My husband always stood behind me as a strong pillar to bring my dream into reality.

And, this is how my journey into the field of “Modelling” started. I am enjoying this a journey a lot by managing my professional and as personal responsibilities. Every journey has picks and drops and the experiences has taught me to act only after the judging the people with whom I work with.

My Achievements

- Mrs. India International - 4th Runner Up
- Title – Mrs. Devoted and Mrs. Maharashtra 2018.

To sum up, I would urge every girl with a dream in her eyes, who believe and love herself, to challenge herself and nurture her passion in the field of modelling. I wholeheartedly thank Kashish Production for giving my opportunity to convey my voice through this article.

SHREE SHIROLE

Dancing to the tunes of lovely songs, picking up great lines & scenes from movies and enacting them, walking as if it is always a ramp, etc all this simply gave me happiness and pleasure. So i decided to do more and more of it. Performing in college functions, close social circles, family and friends gatherings, etc is what i enjoy doing a lot. It was then I realised my passion for this industry and became aspirant of making modelling and acting as a formal career.

Thus began the journey in this industry, entering as a complete fresher without any reference whatsoever, this is the biggest challenge faced by me. I am sure many like me would have had similar experiences too.

Being determined to make a profession out of my passion, I shifted to Mumbai. Visiting the production houses, meeting the casting directors, giving auditions, all this really interested me and I did all with great vigour. I was hopeful about getting a break as my passion and talent, both, was appreciated by many, until I sensed this unwritten rule of the process, of passing personal favours to the people who had with them the authority to take the final call. It was a few months stint in Mumbai until I chose my own self over other things and consciously turned back to return to Pune.

Still continuing to pursue my passion as I used too, I participated in a pageant organised by Kashish Productions in February 2019. Right from the grooming sessions to the final finale, all was a great learning experience for me. The association with Mr.Yogesh Pawar of Kashish Productions has now further led to my featuring in the debut of his company's first magazine. I wish Mr.Yogesh Pawar and the entire team at Kashish Productions good luck for this new venture and at the same time thank and appreciate them for their honest approach and professionalism.

POOJA JALANDAR

Modelling is something that keeps me motivated in my life. Basically I started modelling in 2018 with a portfolio shoot done by a professional photographer. It was a learning curve altogether for me as I was a bit nervous just because it was my first time.

ACHIEVEMENTS

- Have done print shoot for a brand.
- 2 nd runner up in Mrs Maharashtra Global Season 1 by Kashish Productions.
- Magazine shoot for a well known brand.
- Have been featured in few commercials.

STRUGGLES AND CHALLENGES

For me to become a succesfull model, it was a very difficult task because of my job but somehow i managed that and used to go for shoots. Me being a mechanical engineer, my working hours are very much ridgid. But my passion has always kept me focussed towards modelling.

CONFESS!ON

I have been approached by few casting directors and film directors for work but every time they expected something in return which i was totally against of. My dignity doesnt allow me to compromise just to get good work. Rather i would prefer getting work on my talent.

SUNDARA MOORTHY

SETHURAMAN

As it's said, "You don't take a photograph, you make it" Sundara Moorthy Sethuraman, a passionate photographer and a Business Development Lead working in an MNC cannot agree more. I have been working as a Business Consultant since 2010 and also an avid trekker and traveler. My inspiration to bring a camera to treks came by observing my fellow trekkers.

Working in a MNC, little could I imagine my love for the lens would evolve such extensively that I would start with nature and landscape and slowly also enter into fashion photography. To add to that, I have covered the recent pageant Ms/Mrs/Mr Global Maharashtra. And events like "South India Beauty Pageant 2016", West India Pageant 2019 and more. Coming from the Temple town of Tamil Nadu (Madurai), I have been forever enchanted by the architectural beauty of the temples and had been capturing those in my thoughts and further bringing it to reality.

An artist's only concern is to shoot for some kind of perfection, and on his own terms, not anyone else's. And photographers are artists who have the creativity to come up with ways to tell stories using images. They need a good eye for using color, light, and composition.

"I don't just click pictures, I see life in every object, light in every dark spot, and energy in every soul I choose to shoot. I love nature and fashion photography. You can see me in dense forests to capturing some wildflowers or in my studio while directing fashion models."

I had my first camera on the trek to Javadhu hills which made me explore a lot. An enthusiast in life, I am also involved & volunteer for various social causes like Coastal Cleanup, Tree plantation and kids' educational activities, which have inclined me towards my yen for photography. Since Photographers need to travel a lot, working as a social activist led me to explore more and capture things from a different angle. "And of course, I love attending events and turning them into lifelong memories. I have an eye for beauty and I feel everything around is gorgeous only if you see through it in the right way. I have traveled to the mighty Himalayas, surreal beaches, and the forests to make my album diverse.

Mainstream things are not for me; I look at the things differently and bring out best in them."

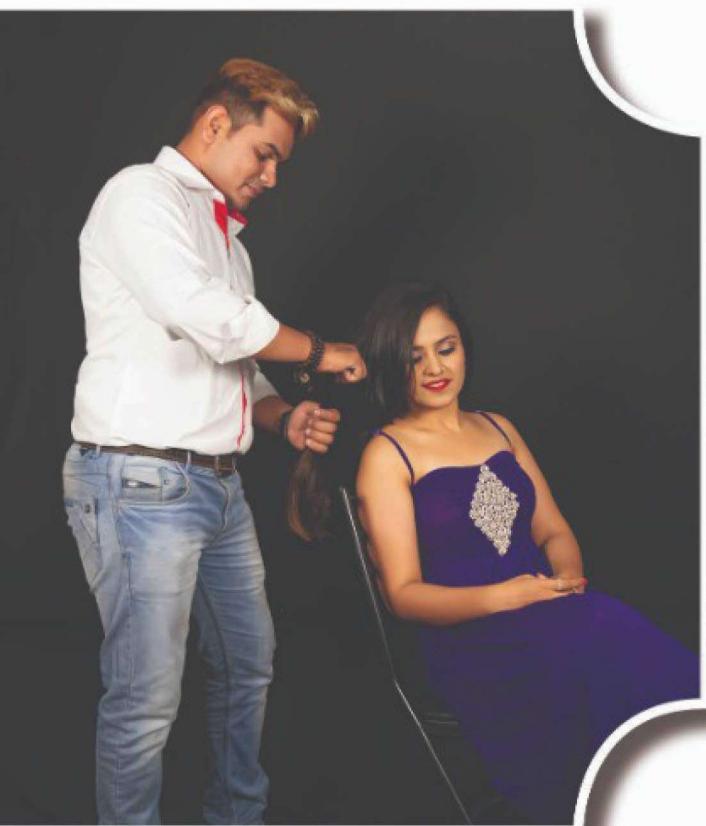

To live is the rarest thing in the world. Most people exist, that is all. And that is the reason I ensure that I make every moment count and induces it for all. I have been shooting fashion since 2 years now and I suggest some basics that models can adopt for better interactions with the camera

- Practice and focus on your expressions. you can follow some leading models and photographers' profiles to learn and practice on your own.
- Network with established and upcoming photographers, make-up artists and designers. The more the variety you have in your portfolio, whigher the chances you get

KOMAL HABIB

CHALLENGES IN INITIAL PHASE OF MODELLING AND ACTING

Being a Model and an Actress you have to face a lot of challenges in the initial phase of your career. I, Komal Anil Habib am extremely proud to be in this field after a lot of struggle and hardwork. I started my acting and modelling career in 2017 with a photoshoot for a known brand followed by a web series named " Sir Challay Kay " as a lead actress. This web series was directed by Mr. Vinay Sonawane which was released in 2018.

In the year 2018 my 2 Video songs were released on reputed TV channels. Recently in the year 2019 I got a lead role for 2 Marathi films which will soon release worldwide.

Initial phase of my Acting and Modelling career was filled with a lot of challenges. I had to go through a lot of auditions for different films, serials, brand shoots but rejections was what I had to face most of the times. Being a working girl it is more challenging for me to manage my job as well as shoots. But the dedication has somewhat kept me on course to achieve my dreams.

CONFESSIONS

When I started my Modelling career, I had some worse experiences. Few casting directors approached me for compromise which I rejected and I would like to share some of those incidents. One of them was from Mumbai, he promised me to give shoots for big brands against which he wanted me to compromise and he was quiet frank in mentioning that do you want to go through your talent and skills or else there are many ways through which you can achieve your goals and the easiest one being compromise. There was an other incident in which I got selected for a Tamil film but they rejected me just because I refused to compromise. These were some bad experiences which I faced but there were many amazing experiences as well.

In my journey till now I have met many professionals who have guided and helped me throughout. I have worked on a lot of projects till now and I would love to confess that the people associated with those projects have been thoroughly professional and co-operative.

There are pros and cons in each field so my call on this Industry would be that you can have a successful career here, it's only the approach that matters the most and there are many professionals in this industry who can guide you throughout.

MAMTA BARI (TAYADE)

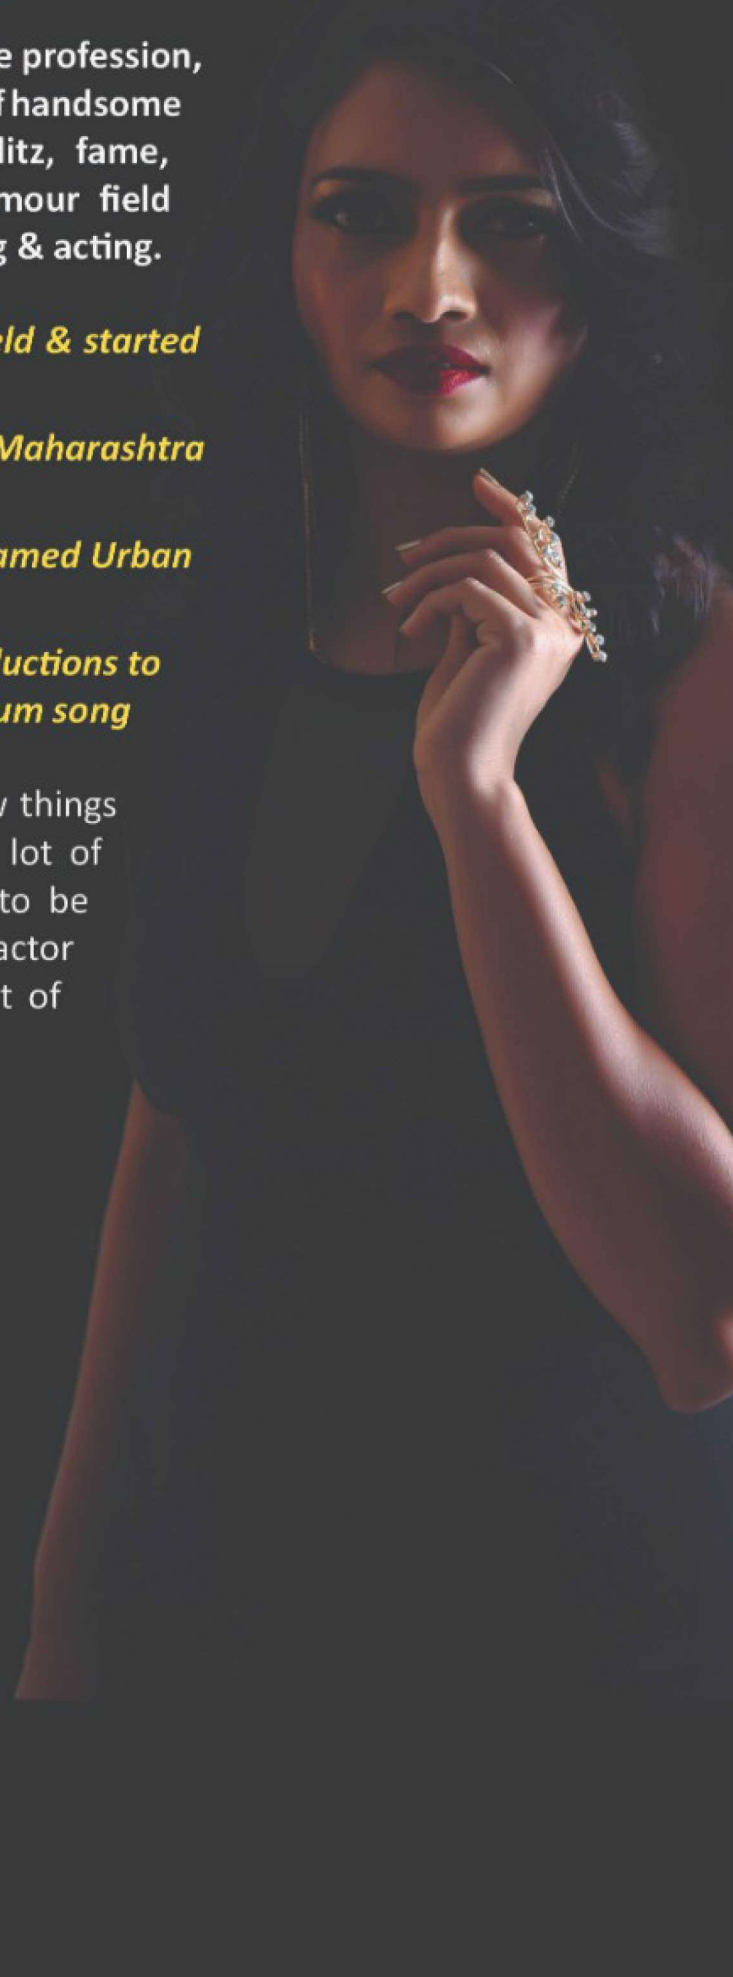

One of the most thrilling as well as lucrative profession, with upsurge in fashion industry. The field of handsome money and experience. The world of glitz, fame, glamour. All of the qualities of this glamour field attracted me to make a carrier in modelling & acting.

- *I made up my decision to enter in this field & started from february 2019“*
- *Since than I achieved the title of Mrs Maharashtra Global Photogenic Face of 2019*
- *Got the Printshoot for Clothing Brands named Urban Tribe & 9 to 5*
- *Got an opportunity through Kashish Productions to work as an Assistant Director for one album song*

To get the entry in Modelling & Acting, few things are necessary such as Physical attributes, lot of hard work, dedication and perseverance to be successful. It is highly competitive. Stress factor is high and the hours are erratic and a lot of patience is required.

CONFESS!ON

As such few unauthentic people are still there who approached me to compromise or pay for getting some work in the film but, I have the power of doing the right thing, even when it's not the easy thing to do. Because sometimes my ethics were put to the test at any time... But compromising with my ethics even just once is a slippery slope.... There are some gray areas depending on how you approach towards a certain situation.....

SHIVANI SAINI

I started my life from zero. I have done so many of sacrifices in life to become a model. 1st of all my mom wasn't ready for this but I stood for my passion and my dream and I started my journey 2 years before. I am from Mumbai but 5 years of my life spent in Haryana and in village. I was very different person but I groomed my self by my own

The biggest struggle for me in my life has been that I have achieved everything by my own and no one has helped me in my journey. For my career even my mom used to tell me that you should do some job rather than this time pass but kyakaru " Sabkoatnai or mere jatnai ".

My dadu forced me to do aviation so I completed my course but I wasn't fully happy.

CONFESS!ON

My mother forced me to give interviews and do the job as an air hostess but I wasn't getting true feeling from inside that this i will be able to do. Aviation wasn't my dream job and that was the reason why iwas so upset and i told my mom i will not be able to do this and i left home, did job, earned money, made my pthotopolio, took home on rent, etc for survival. When I stepped into this industry first 2 months were very hard to work but after 2 months I was a bit comfortable with my things that's how I started my journey.

MR. RAHUL BORHADE

I always believed that Failure will never overtake me if my determination to succeed is strong enough.

An amazing kick start to my modelling career has happened from the fabulous opportunity given by Kashish Productions for their 2nd season of **MR PUNE GLOBAL 2018**. Being a beginner in the modelling industry I was guided so beautifully to clinch my first ever modelling title of **MR PUNE GLOBAL 2018**. I'm so grateful of my association with Kashish Production and of course none other than **Mr. Yogesh Pawar our GURU**.

After this there was a new turning point in my modelling career by early 2019. I became 2nd Runner up: **MR MAHARASHTRA GLOBAL 2019**. CONFESSION:

Before entering in the modelling industry, I'm still an IT professional as I am the only source of income for my family. I belong to a very simple and middle class family from a small place in Pune (Moshi - Borhadewadi). If you see my family background there is of course no modelling background at all. I would say I'm born ambitious, whether it be an IT profession, Cricket, Singing or Fitness.

I remember, I started my IT career in 2006 with IBM and now I'm working as Project Manager in Infosys. During this journey I had a lot of ups and downs through financials and personal life too.

I always had a realisation of unhealthy life style that I was living because of fast life that I was running through. With all the responsibilities on the shoulders, I had a challenge to keep my fitness level to the mark. Therefore I transformed myself from a huge 93 kg fatty man to 78 kg smart dude in flat 10 months. Of course my looks and personality started popping out to be handsome amongst my friends. After that unbelievable transformation one of my favourite friends Mr. Prasad Khaire motivated me to enter the modelling field by entering the Kashish Production's audition round for Mr. Pune Global Season 1.

Anyways there is a lot to say but I would stop myself here with a beautiful lines that I always believed :
"Life is not just about finding yourself, life is about creating yourself".

CONFESS!ON:

A day that I remember when I was on shoot & my kids were waiting for me at home for a family celebration, but I could not make it on time. Entering in world of fashion journey I was adamant about chasing my friend of fashion industry but I forgot it & I decided to take my self in fashion world. My future goal is to become successful model and represent India. Challenge becomes more easy when you have good friends and support of your loved ones.

It felt so strange and wrong — I don’t want to take jobs away from someone who actually deserves them.

I always try to stay fit and healthy. I personally believe that if you do hard work, you can achieve more goals in your life, so the life becomes successful.

Always love yourself, love your beauty and focus on your dreams, confidence and respect.

STRUGGLE AND CHALLENGES BOTH ARE PART OF OUR WORK.

Where there is work there is struggle I won't say struggle has been worst part. But it's been the part of my life which made me feel confident towards my work.

Challenges has arrived in many photo sessions. It can be regarding location or some other technical issues.

Study and understand posing. Practice runway walking. What separates a pretty model from another pretty model is going to be their posing ability and their walk. Modelling is an art. The supermodels you see in gorgeous magazine photos did not just sit in front of a camera and get lucky when the photographer took a photo of them. They worked with the photographer to create a masterpiece. Both equally skilled in their respective trade, a model will use her posing, facial expressions, and artistic intuition to help create the photographer's vision. The photographer will use his knowledge of lighting, aperture, framing, etc. to bring everything to life on his end. Mood boards are a great way to put together everything that seems even remotely related to your idea. This can be colour palettes, makeup, outfits, settings, lighting, environment, or anything in between. Your mood board is a visual representation of the themes and idea that you have in mind, and are the starting point based on which you carry forth your shoot. Often, they can also help you share your ideas with your clients or models.

1) The right pose in the right circumstances can make all the difference, particularly when photographing for fashion or advertising.

2) Expression. Whether it's neutral, happy or serious, the expression is most important

STRUGGLES:

I have faced in my life is to manage Personal and Professional life together being a working mother of 4 yrs daughter managing life without any support is very difficult u had to do lot of struggles and dedicated hard work to reach at this stage. From the childhood Modeling is passion for me ,Seeing other models it comes into my mind that may be u can't make it but that Passion inside me helped me to make it happen. I used to practice ramp walk at my house corridor. Used to practice to deliver introduction in front of mirror when my hubby was not at home coz he was not liking this profile to be very frank And today I'm still here because of my passion and d good thing is now my hubby has started supporting me.

CHALLENGES:

Most challenging thing was Time management Ofc work pressure and targets, Daughter's school timings, managing family. U know after managing all these stuffs which are as important for me as my dream was to give time for grooming seasons was a challenge itself. Yes I got late for home. My daughter used to go off to sleep by that time and I feel lil upset for that. But I strongly believe that the journey has just begun.

CONFESSION:

As I told earlier, my hubby starts supporting me gradually but I have decided to leave this line. Not because m not liking it anymore but coz I want to give his willing more priority. For me m ready to sacrifice my dreams and will give more time to my family. And yes I'll focus on my job now and will

By God's grace till now nothing wrong has happened with me and I hope will not happen in Future as well. Would like to thank my husband and daughter for their support because without them nothing was possible.

ALANKRITA SHAH

I always had a passion and dream to step into this magical world. Hence after my graduation, in June 2019, I've participated in a pageant organised by Kashish Productions for the first time. Since then, my life has been changed drastically. It boosted my confidence level and pushed me one step closer to my dreams.

Now I'm completely a different person, a person with full of confidence. And now I can proudly say YES, I'M A MODEL.

• STRUGGLES

No doubt that this industry is full of struggles & challenges, and if you want to survive in this industry, learn to face them with power, confidence and self respect.

In the initial stages of my modelling career, there were many critics who used to discourage me from being a model. Taking these critics with a positive mindset was a huge task.

The environment would be filled with full of negativity. Pushing myself from the negative minded people with confidence and accepting my short height, body structure as my strength was a deadly challenge.

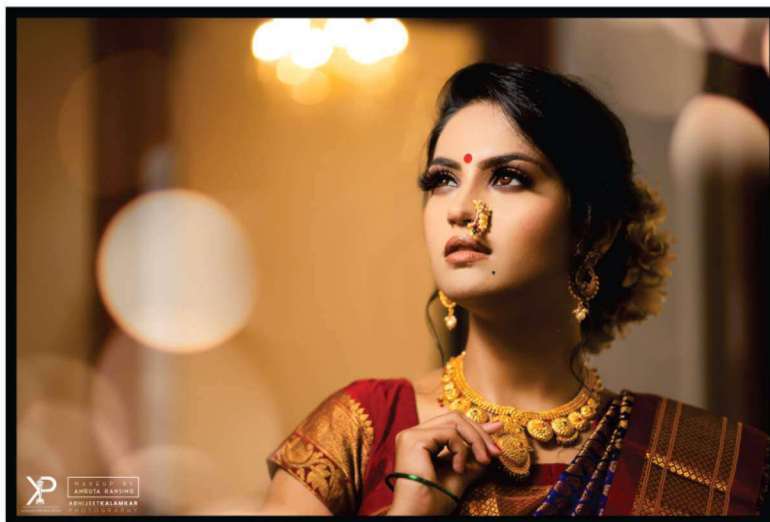

Out of all, what I have learned is that 'Just Love yourself unconditionally' Surround yourself with positive & real people. Face the world with your talent and prove them with your work and achievements.

• IN WHAT WAY PEOPLE APPROACHED U FOR COMPROMISE OR BRIBE, ETC:

Finding the professional and loyal people around you is the first step you need to do while stepping into this magical world.

Many people will approach you for a negative reason, choosing the right people and right work is the major part.

I've got many mails, messages, calls offering huge amount of pay for the shoots, short films & movies as well. But never get tempted to huge money offers because it's a way to track models into a negative world. I've rejected many offers on a good note intelligently, who tried to play a prank.

• ACHIEVEMENTS

The major achievement & the proudest moment was getting crowned as the WINNER of MISS PCMC GLOBAL 2019 organised by Kashish Productions.

It wasn't an easy task to grab that precious crown in my first ever beauty pageant. That crowning moment made my parents feel so proud of me.

Another major achievement would be working in Kashish Productions as a Manager and Graphic Designer under my guru Mr. Yogesh Pawar Sir.

Also I've been Assistant Choreographer in almost more than 5 shows under Yogesh Sir. I've done many photoshoots, brand shoots & catalogue shoots.

I wish and hope my achievements increase day by day by the grace of god & of course by the guidance of my parents and Yogesh Sir and I always believe to make them feel proud with my achievements.

• CONFESSION ABOUT THE WORSE PART HAPPENED :

There are many people in this industry who try to create stupid, fake & unwanted rumors all around. People might take a silly thing into serious stuff and create a mess. Sometimes being nice to people is a big problem in this industry.

Adjusting with those rumors will be a challenge to face. You'll be in a dilemma to either prove the rumor wrong or to just let it go without any explanation. But believe me, once after that phase of life, you'll become more stronger and confident enough to deal with people in future.

I conclude by saying - to live happily, play smartly. Surround yourself with positive, hard-working and motivated people & no one can stop you shine.

ACHIEVEMENTS

I would like to express my sincere gratitude towards Mr.Yogesh Pawar sir and the Kashish Productions entire team for providing me this opportunity to perform on this platform.

STRUGGLES

According to me each challenge you face teaches you a lesson and helps you get closer to your goals. I believe you should have that right attitude to become successful in our lives. Just be yourself and you will give your best. Also I have my strong family who have supported me in every decision of my life

ROLE MODEL

Being a role model isn't about showing people how to look like you. Being a role model is about using your freedom to show other people it's safe to be themselves.

Mt role model is Priyanka Chopra for immensely works for our nation and Shilpa Shetty for her dedication towards being fit and encouraging others to be healthy and fit

CONFESS!ON

I believe silence is violence. Models who decide not to speak up are participating in that same system of oppression that's harming other people, and just because it doesn't affect you directly, or you benefit from the privileges of it, doesn't mean that you get a pass and that you should remain silent on those issues.

Lastly I would say Be thankful to everything you have, Be kind, Be true to yourself, help people who are in need, Be positive- You are the creator of your own universe.

MRUNAL KULKARNI

Apart from **Modeling**, Having crush on **acting** and all **dance** forms specially Bollywood. Learning Bharatnatyam from Last 7 years .

• Struggle

Due to frequent changes in residences, I couldn't continue with same teacher or Organisation. with every change, there was search for a new teacher and I had to start from scratch.

• Main Challenge

Being the only child, parents wanted me to concentrate on academics. **Meeting Parent's expectation without stopping pursuit of my dreams** is the main challenge I am facing.

• Achievement

The biggest achievement is **'Confidence'**. In absence of teaching, I turned to self learning and started experimenting which enhanced my confidence. I ventured in many fields.

Received best actress award, won debate competitions and played football matches to represent my school team at international level as team captain for 2 consecutive years. Received Best Speaker award in the Toastmasters. Participated in May Queen-2019, held in Muscat and reached in final round. won **"Miss Beautiful Hair"** title.

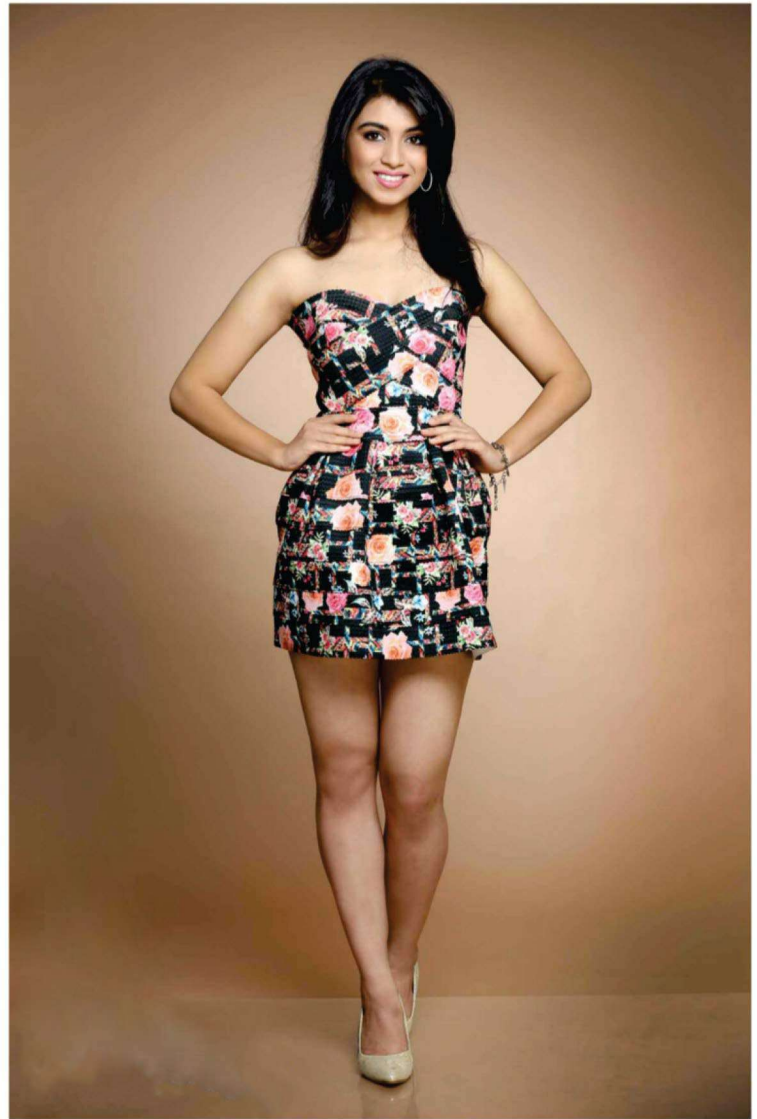

So far luckily, never came across any unwarranted comment nor faced any uneasy incidences. May be my innocence is appealing to people.

• CONFESS!ON

The life is full of challenges and my biggest confession is that there are a very few genuine people in the industry as i have come across few fake people recently.

Basically I always wanted to be a successful Bollywood actress. So since childhood I used to attend various dance and acting workshop. When I was 16, I randomly filled one form of beauty pageant. Age criteria was 18 for that pageant but still I submitted the form. And to my surprise I got selected in top 12 of that pageant. I couldn't win the pageant but I learnt so many things. Since then modelling field attracted me a lot. This is how I started modelling.

After my first pageant, I got few offers for commercial advertisement. I was also a part of the biggest fashion shows in Pune (Symagine Fashion Shows etc.). Later I won **MISS ULTIMATE PUNE 2018**. After this I got new fortune in my modelling career in early 2019, I became **MISS MAHARASHTRA 2019**. By this I became more encouraged and self-confident in modelling career.

• CONFESSION:

Now I am studying B.COM in SP College. Beside that I am studying ACCA (Association of Chartered Certified Accountants). I am happy with my studies.

I am from a middle class family. Being from a Maharashtrian family, initially my parents were a bit scared to allow me to do career in modelling. But somehow I convinced them.

As this industry looks very glamorous, most of the young girls are attracted towards it. But we don't know the dark side of this industry. Worst part of this is that sometimes people ask you for favor of some kind of compromise. According to me this is the worst part of this industry.

Here I want to stop by a word that I strongly believe it" Don't let the fear of falling keep you from flying"

Winning or Losing does not matter. All that matters is Participating & Learning. Sometimes people buy the winning title without deserving, but I believe in Learning & Winning.

CONFESS!ON:

Modelling is one of the field in which everyone wants to try his luck. I was one of them. I started this in 2018. Many Directors supported me in my beginning phase. I belong from middle class family still I thought of giving it a chance. I left my job and my business was not at a good stage. Then I decided to do something good in this field only. I have interest in acting too so I started doing Drama's. I did 2 Drama's. After this I got inclined towards my fitness. I started focusing on my fitness. Started eating proper diet with proper workout. Then I started receiving some calls and text due to my work. I worked for few of them.

In this journey I went through tough times. But I always believe in being Positive. “Life is not the way it's supposed to be, it's the way it is. Get Creative. Learn From your Difficult Times. So this is all about my experience how I started.

I want to see myself at a good place in future. I know lots of hardwork and dedication it takes and I am ready for this. I believe one day I am going to achieve something big in this industry and will will many hearts.

SHRUSHTI ANDHARE

**PROFESSIONAL
MODEL**

'Success is peace of mind, with a glass of wine and not thinking that all is mine.'

I've always believed that if you are content at heart and happy at mind, everything else falls in place eventually. My journey towards achieving my goals and fulfilling my dreams began slowly, but steadily, and since then, I have never looked back!

3. Was the showstopper recently for Kashish Productions and V-Productions.
4. Was the Finalist for Miss, Mrs. Queen of Maharashtra.
5. Conducted various college fashion shows and dance competitions.

Though I am a computer engineer by profession, dancing and modelling have always been my passion. Dancing has always helped me rejuvenate my mind and body no matter what situation I was stuck in and therefore, I pursued it and currently I am a professional dancer. I am also an official Zumba and Bollywood instructor.

• **CONFESS!ON:**

As we all know, setting up a career or even being a part of this industry where you have to face the camera most of the times, physical fitness is of prime importance. There was a time when I weighed much more than I do now, and I knew that I could do better. I knew that if I had to chase my dreams, I had to put more efforts for my own betterment. I worked hard, especially on my body and got into a much better shape. Since then, 'being healthy and fit' hasn't been an option but a major priority for me. Well, it should be a priority for all of us!

In this field where it is integral to look good and be fit, one has to constantly push oneself through any hurdles that come in the way as I strongly am of the opinion that there are no shortcuts to success. I have learnt that being confident and staying inspired always goes a long way. Nothing is impossible, if you want it, you can get it- just hustle for it!
